By Edward Richmond Pierce

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from A Practical Manual of Steam and Hot-Water Heating For about a quarter of a century the writer of these pages has been connected with those who manufacture and sell boilers and radiators for steam and hot-water heating. During this long period it has been his daily duty and privilege to answer the questions of architects, engineers, steam-fitters and house-owners in regard to every phase of the house-heating industry. To do this with some degree of intelligence on his own part, and to keep in touch with the remarkable development of the science of heating through the efforts of heating engineers during this period, has compelled him to; utilize every resource at his command and become a student of every phase of this somewhat complex subject. His duties have compelled him to visit frequently every section of our country and to become acquainted with the heating requirements of each. Many times during these years he has been urged by friends to give some presentation of heating principles in book-form. Experience has shown that in every doubtful...
