There are other Chinese vowels found in j= tan, T ting, W keny, - she, - chio. All these vowels may have been formed from a by tendency to variation. The modern Chinese o represents the ancient a. The i of old Chinese as formed by the convex front of the tongue advancing to very near the palatal arch is after s, sh, ch, in modern Chinese exchanged for a peculiar vowel formed by narrowing the orifice between the tongue and palate. The older o and ii have both become u. So it is with other vowels. The old have changed into the new. The lesson taught by studying the ancient sounds and the dialects is that...

Reviews

The publication is simple in go through preferable to fully grasp. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Mrs. Josiane Collins**

This is basically the finest publication i actually have go through till now. We have read and i also am confident that i am going to likely to read through again once more in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.
