Pour some water into the egg-shell, which will mount until it attains the level of the thimble; then the siphon is set in action, and all the water makes a lively exit through the straw. You may continue to pour your water at regular intervals into the shell, but your audience will be convinced that by some mysterious means it empties itself with equal regularity. The Flattening of the Earth at the Poles. --Its Rotundity at the Equator. By the simple apparatus which we are about to construct, you can explain to a child how the earth, by 210 FLATTENING OF THE EARTH AT THE POLES. revolving on its axis, has become flattened at the poles and rounded at the equator. For the earth was a...
