TWO-AXES SUN TRACKING SYSTEM

Ayad Mahmood Kwad Al-Awsi
Nabeer K. Abd Al-Sabih
Two-Axes Sun Tracking System
The Theory and Design

LAP Lambert Academic Publishing Nov 2013, 2013. Taschenbuch. Book Condition: Neu. 220x150x11 mm. Neuware - This book is aimed at designing and building a complete tracking system including mechanical structure, electronic controller circuit based on PIC, and robust program that can be adapted according to the location and the season (where one can chose the way of tracking either with a constant time or with constant number of moves in a day). It focuses on an astronomical equation to calculate...

Reviews

This written ebook is fantastic. It is probably the most incredible ebook we have read. Its been written in an extremely basic way in fact it is just following i finished reading this publication where basically modified me, affect the way i think.

-- Howell Reichel

A top quality pdf and also the font applied was fascinating to learn. it was actually writtern extremely properly and valuable. I discovered this publication from my i and dad recommended this publication to find out.

-- Jan Schowalter

Thorough guide for pdf enthusiasts. Better then never, though i am quite late in start reading this one. Its been printed in an remarkably simple way which is only soon after i finished reading through this pdf by which really altered me, change the way i believe.

-- Dr. Rowena Wiegand
