Brand New Book ***** Print on Demand *****.In his message to Congress in the Administration s first National Drug Control Strategy, the President affirmed that . .a well-crafted strategy is only as successful as its implementation. To succeed, we will need to rely on the hard work, dedication, and perseverance of every concerned American. For 3 years this principle has guided the Administration s efforts to include all sectors of American society in a comprehensive national effort to reduce illicit drug use and its consequences. The Administration s first Strategy included 106 action items to be undertaken by Federal agencies in partnership with state, local, tribal, and international counterparts to prevent illicit drug use in our communities; intervene early in the health care system; strengthen drug treatment services and support the millions of Americans in recovery; break the cycle of drug use, crime, and incarceration; disrupt domestic drug production and trafficking; strengthen international partnerships; and improve drug-related information systems. The 2011 National Drug Control Strategy built upon this policy framework, addressed several important legislative developments, and added a focus on the needs of special populations such as college and university students, women and families, and military members, veterans, and their families.
