The National Park Service (NPS) was formed on August 25, 1916, and is the U.S. federal agency that manages all national parks, many national monuments, and other conservation and historical properties with various title designations. The primary objectives of the Water Resources Foundation Reports are to: 1) synthesize information on the existing conditions of a park's water resources; 2) identify and describe the park's fundamental and/or important water resources, building from a park's purpose and significance statements, and 3) identify stakeholders and laws and policies that apply to these fundamental water resources. This is one of those reports.
