

The Sacred Tripudium (Paperback)

By Thomas Fitz-Hugh

Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. An excerpt from THE SACRED TRIPUDIUM. Caesius Bassus and Metrical Pragmatism. The sciences of culture-history, above all others, have found their pole-star of method in the evolutionary doctrine of Heraclitus, while they have relegated to a purely subsidiary relation in scientific inquiry the static doctrine of the Eleatics. The all-important problem of humanistic inquiry is to trace the historical process, the successive stages of which are mapped out in the statistics provided by the static method. Thus static analysis is merely the hod-carrier of historical investigation, whose essential task is to follow the stream of human changing, and to determine the genetic relations of the successive cross-sections of phenomena. From such chronological observation of the phenomena of being, there emerges the dynamic law of becoming, which is the final goal of culture-historical inquiry. Axiomatic as the evolutionary standpoint in general has become in humanistic investigation, the assertion of the historical over against the static standpoint in the study of ancient accent and rhythm has been accomplished but slowly and painfully under the auspices of a...
