Createspace Independent Publishing Platform, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. This book is not an attack on Judaism, Christianity or Islam, it merely opens a new perspective on the Bible. It is based on 40 years of critical thinking and broad based research into the Bible itself, evolutionary biology, Dunbar's number, palaeo-anthropology, history and current affairs, epigenetics, cognitive neuroscience and cognitive processes, Humanistic psychology, the original meanings of words, metaphors, the evolution of language and various systems of ancestral worship among others. It is not a specialized scientific treatise or any other kind of academic work, but rather an attempt at a common sense understanding of the topics mentioned above, based on a search for connections between apparently unconnected phenomena and disciplines. Much good has been accomplished through that influence. Conversely, a great deal more harm has been inflicted on the world and ordinary people through unjustifiable claims of supposed Biblical precedent, inspiration and even instruction. The Bible is written exclusively in the form of metaphors - parables, allegories, proverbs and the idioms of a by-gone age. The reader will be shown how to interpret Biblical metaphors in a way which will show both believer and unbeliever alike the real meaning and importance of the Judeo-Christian Scriptures. Readers will find rational explanations for the following statements. 1. The God of the Bible exists, but not in the form of a supernatural anthropomorphic deity. 2. The concepts of...
